ACJ Smart LiFi Monitor

Get your smart TV on-board

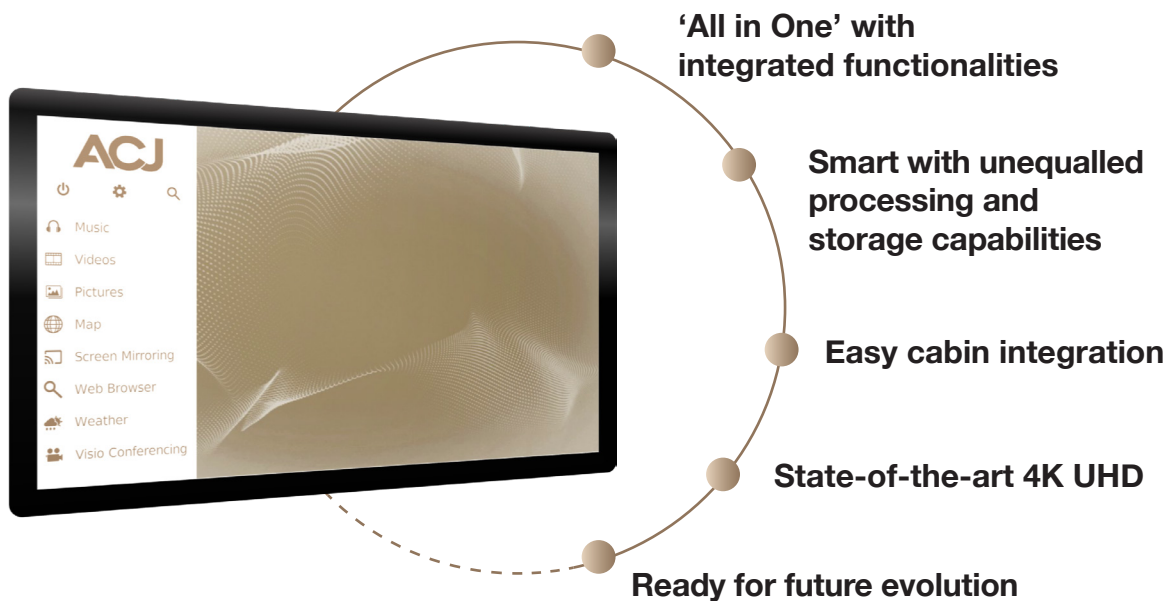

Applicability: Mixed fleet (ACJs & others OEMs)

The ACJ Smart LiFi Monitor is a smart monitor co-developed with Latecoere Interconnection Systems aiming to bring the on-ground experience into your cabin.

This all in one display integrates all the main features you have in current state of the art IFE systems but with lighter and thinner design.

It is an easy plug & play installation for immediate use and it is ready for all the new future cabin generations.

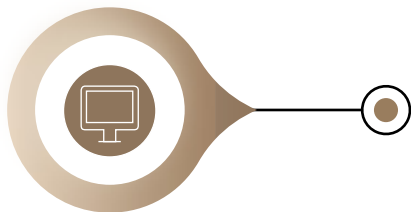

Features

- Connected monitor (WiFi / LiFi / Bluetooth)
- Moving maps, Audio Video On Demand, Weather, Web browsing
- Integrated 1080p Camera & videoconferencing
- Cast & Mirroring, remote control
- “Easy Plug and Play” fully compatible with legacy IFE ecosystem: 115VAC, HDMI, HD-SDI, Ethernet, ARINC 429 link, USBc, composite, audio outputs
- Available sizes starting Q1 2022: : 55”, 43”, 32”, 21”
